PRODUCT PROFILE

Supplement Facts

Serving size two (2) Capsules
Servings per container 45

	Amount Per Serving	% Daily Value
Zeolite (a natural mineral)	1600mg	*
Vitamin B-12 (as Cyanocobalamin)	100mcg	1666%
Calcium (as calcium carbonate)	144mg	14.4%

*Daily value not established

Other ingredients: Gelatin, Magnesium Stearate, Silicon Dioxide.

Directions for use:

Take 2 capsules twice a day for normal detox and well being.

For other purposes: Take 6 capsules three times a day or as directed by your health practitioner.

Patent pending

Ingredients Glossary

Zeolite: A natural mineral that has a cage like structure and is negatively charged by nature. The negative charge acts like a magnet to attract toxins and heavy metals into its cage structure and carry them out of the body. It also balances the pH in the body which doesn't allow foreign cells to grow. *

Calcium: A necessary mineral for a healthy body. This is used to neutralize acid in the stomach, which will help the absorption of the Zeolite. The neutralizing of acid in the stomach is beneficial for people who have this side effect from going through chemotherapy.

Vitamin B-12: A necessary vitamin for healthy living. B-12 has been shown to increase oxygen in the blood flow to boost energy.

PRODUCT PROFILE

Research Brief

Studies have shown that the natural mineral Zeolite has very beneficial uses to live healthy. The mineral has a honeycomb shape that is optimum for filtering toxins. It is also one of the very few minerals that have been negatively charged by nature. This means that in addition to having an excellent shape for filtering toxins, it actually acts like a magnet to attract them. The following is a study that shows how effective the Zeolite ingredient used in Destroxin[®] is in detoxifying the body:

[Sorption characteristics of natural zeolite (clinoptilolite) in biological material in vitro]

[Article in Czech]

Vrzgula L, Seidel H.

The zeolite (clinoptilolite) sorption of arsenic, cadmium, and lead ions from rumen fluid and abomasum juice was investigated in laboratory conditions. Zeolite was found to sorb 91% of lead and 45% of cadmium from rumen fluid in 24 hours. The sorption effectiveness was even higher from abomasum juice where zeolite sorbed 98% lead in 24 hours.

I never heard of this mineral before, what is it?

Zeolite is a volcanic mineral which was created when ash and lava from a volcano has a chemical reaction with sea water. The result is a compound with a cage-like structure with a negative charge. The negative charge acts like a magnet to attract positively charged toxins and heavy metals to the Zeolite. These are then trapped in its cage structure and carried out of the body.

How safe is Zeolite?

*This form of Zeolite is listed by the FDA as GRAS (generally recognized as safe) and is used in many products that you have probably come in contact with. Zeolite has been shown to be completely nontoxic, even at extremely high dosages.**

Will Destroxin® conflict with any medications that I may be taking?

*Probably not. It contains all natural minerals and vitamins. It passes through your system collecting the toxins, and is passed naturally without you even noticing. However, you should always check with a medical professional if you have any concerns about interactions with medications that you are taking.**

I have had problems with side effects of other detoxifying products, will I have the same problem with Destroxin®?

*Most detoxifying products have side effects but, **Destroxin®** generally does not have any side effects, although it may vary with certain individuals. Destroxin® contains the amazing natural mineral Zeolite with a unique formula that has been proven to absorb the toxins, free radicals, and metals from your body, as well as boosting the immune system. This mineral has been shown to balance the body's pH. Foreign cells can not grow in a balanced pH environment. The great thing about using an all-natural and safe product is that it can be taken over and over long term without worry, and only beneficial benefits for your body.**

About ZEO Health Ltd: ZEO Health Ltd. is the original manufacturer of Zeolite supplements in the United States and one of the most knowledgeable about Zeolite supplements in the world. Their products are specifically formulated, using the form of Zeolite shown effective in the scientific studies, and produced to get the highest quality and most effective health benefits. All the products are manufactured in a licensed pharmaceutical facility under strict quality control.
